Double Ear Hose Clamps

Description

The use of two ear clips is an economical solution for many simple hose assemblies, used with air or other fluids. The two ears give the clip extra grip and help to maintain constant pressure around the hose. Fitting is more flexible and exact.

The practical design of two ear clips means that they clamp firmly on to the assembly and cannot be removed once mounted. The edges are rounded to avoid damage to the hose. Due to the AISI-304 or AISI-316 steel used in the manufacture of these clips, their corrosion resistance is outstanding. They are recommended especially in outdoor applications.

Part Number*	Minimum Diameter (A)		Max Diameter (A)		Band Width (B)		Band Thickness (C)		Material Options	
	HCL	mm	inch	mm	inch	mm	inch	mm		inch

* To identify different materials add either -W1, -W4 to the end of the HCL part numbers

Product Information

Made by:	Mikalor Spain
Manufactured according to:	DIN 2393
RoHS Compliant:	Yes
Hazardous Goods:	No
HS Tariff Code:	7326 90 92

Material Information

	W1	W4
Clamp:	Zinc Plated Steel	304 Stainless Steel
Corrosion(ASTM B-117):	72 Hours	400 Hours
