

P Clips (PK-15)

Rubber Lined P Clips - 15mm wide

Description

HCL's Zinc Plated Steel Rubber lined P clips are 15mm wide and have an elastomer sheathing that absorbs jolts and vibrations, preventing damage to cables and hoses; and also acts as an excellent electrical insulator.

The PK series Rubber lined P Clip is manufactured in accordance with DIN3016, incorporating a reinforced fastening hole and is made from W1, W4 or W5. This clip is ideal for general industrial applications and is manufactured in accordance with DIN3016.

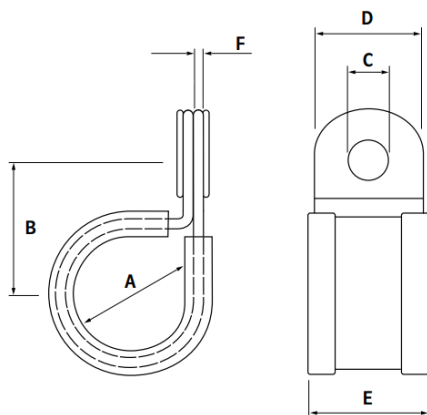

P Clips (PK-15)

Rubber Lined P Clips - 15mm wide

* To identify different materials add either -W1, W4 or W5 to the end of the HCL part numbers

Product Information

RoHS Compliant:	Yes
Hazardous Goods:	No
Manufactured According to:	DIN 3016

Material Information

	W1	W4	W5
Band:	Zinc Plated Steel	304 Stainless Steel	316 Stainless Steel
